Apr. 29 discussion.

Last August

did. link. some.

One topic:

event comes
the same time.

* coincidence

* proton / alpha.

* track construction. how bad.

TOF.

DRG Read one energy deposition.

padel...

digitization.

"Realistic simulation"

Few people extremely

time scale MC: meeting.

* small number of developers.

~~no~~ Tracker task.

1970

high priority

* full-time software

hardware. - .

Tracker.

only we apply.

picture data.

○ X-ray gun.

Yes.

Prommy Generator.

photon production.

Trigger

- anti-matter trigger mode
low - e

- Minimum Bias

- everything all ToF. 10 kHz.

(Zero suppression.

Master Barrel pre scaling 500 , dan

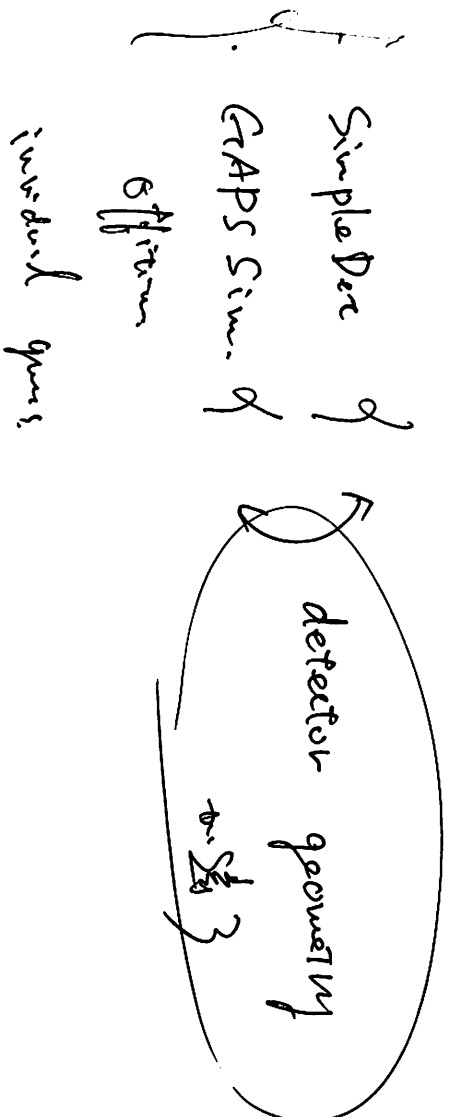

- Self-trigger

Tracker only , high

* Function

- Offline
- 45 TB simulations
- digital files
- Reconstruction
 - very complicated
 - even longer...
- 45 TB.
